

Peppermint Grove
The Garden Shire

Updates to FOGO requirements

August 2026

FOGO is for three things only:
Food organics, garden waste, and compostable liners.

There's now updated guidance on what can go into your FOGO bin. Some items that were previously accepted should now go into the red lid, general waste bin such as pet poo and soiled take away boxes.

The aim is to make it easier for households to know what belongs in the FOGO bin.

Some items that were previously accepted should now go into the red general waste bin.

What goes into your FOGO Bin:

- Food scraps (fruit, vegetables, meat, bones, dairy)
- Garden waste (grass clippings, small branches, weeds)
- Certified compostable caddy liners with the AS 4736 seedling logo. These can be purchased from the Shire Administration building at 1 Leake Street, Peppermint Grove. For more information on FOGO: [Peppermint Grove | Western Metropolitan Regional Council](#)
