MACINTOSH, Peter

I am a long term resident of Peppermint Grove and with my wife Susan, we have raised our family of three sons within this community for nearly 30 years. I am standing to support the values of the community, Peppermint Grove's unique built environment and its natural amenities.

Professionally qualified as a chemical engineer, I am active in both the public and private corporate sectors. I have served as a company director on a number of private and public listed company boards and have interests in medical imaging.

I am passionate about preserving our unique habitat and accessible community services. I was active in the campaign to preserve the Shire from amalgamation and remain committed to the longer term cause.

If elected, I look forward to the opportunity to serve and build our community that is our Shire. Thank you.
