## THOMAS, Rachel

I have lived in Peppermint Grove for over twenty years. I was elected to Council in 2009 and have had the privilege of being Shire President since 2011.

I stood for Council because I wanted to help protect the amenity and character of this beautiful and unique suburb; strengthen its governance and encourage better, more open communication between residents and Council. I hope that, with my fellow councillors, I have contributed to advances in those areas during my time on Council. Our revised Local Planning Scheme better protects the quality of our streetscapes and environment. Our financial position is much improved, enabling us to maintain our independence as a sustainable local government into the future.

My professional background is in human resources management and industrial relations.

I seek your support for a further term on Council to continue to work in the best interests of the Shire and its residents.
