Background

With a rich history dating back to 1832 and the early settlement of the Swan River Colony, the Shire of Peppermint Grove is known for its beauty and heritage boasting large character homes, a stunning river foreshore, beautiful gardens and shady streets lined with peppermint trees.

With an area of only 1.36 square kilometres, the Shire is home to 1,597 residents who reside in a predominantly residential community. Considered to be a highly desirable suburb, Peppermint Grove has an above average socio-economic profile. Much of the Shire's activities relate to the development or redevelopment of large residences. The maintenance of the suburb's amenity, particularly its trees, foreshore and reserves, is a high priority for residents.

The Department has recently provided the following advice in respect to the lodgement of this Report of Review (RoR).

We also acknowledge that the Shire is interested in progressing the Cottesloe PSP as a matter of priority. Typically, we would support changes to the local planning framework being undertaken in accordance with orderly and proper planning. In this regard, changes being undertaken to the Strategy, followed by the Scheme and then the Precinct Structure Plan (PSP). It is noted, however, that the Shire has already undertaken work in respect of the PSP, in consultation with the Town of Cottesloe and intends to continue this momentum by engaging in a community consultation process shortly.

In recognising the need for a balanced approach to be undertaken to deliver both priorities, no concerns are raised in respect of the Shire continuing to progress the PSP, however, we support the RoR being progressed as soon as practicable in accordance with Regulations. We would also support the RoR outlining a program or timeline for anticipated projects to be rolled-out and how the inconsistencies between the Strategy, LPS 4 and PSP are intended to be addressed.

Figure 1 Shire snapshot

Scheme details

The Shire of Peppermint Grove Local Planning Scheme No. 4 (LPS4) was gazetted on 3 March 2017 and follows the Model Scheme Text format. LPS4 revoked Local Planning Scheme No. 3 which was gazetted on 2 August 1996.

The Shire of Peppermint Grove Local Planning Strategy (Strategy) was gazetted on 22 March 2016. The Strategy review commenced in 2007 with a more comprehensive review commencing in 2009. The Strategy pre-dates the Local Planning Strategy Guidelines released in October 2021.

Strategic Context

Scheme amendments

There has been a single amendment to LPS4, to rezoning a portion of Lot 90 (No. 2) Bay View Terrace, Peppermint Grove, from Residential R25 to Residential R10 as shown in the Amended LPS 4 Scheme Map. Rezoning of Lot 91 Keane Street, Peppermint Grove from R10 and R25 to Local Road as shown in the Amended LPS 4 Scheme Map.

A second standard amendment is currently being advertised that seeks to rezone Lot 24 and Lot 26 (No.12) Johnston Street, Peppermint Grove from Residential R15 to Residential R40.

There have been no amendments to the Strategy.

Development activity in the local government area

The Shire occupies a small geographical area which predominantly comprises low density residential housing. Development activity remains substantively residential in nature and reflects the limited number of premises that perform commercial or civic functions.

There are no structure plans that have been endorsed under LPS4, although the Cott Village Precinct Structure Plan (Cott Village Project) has been progressing since 2019 <https://www.cottesloe.wa.gov.au/business-development/major-projects/cott-village-project-proposed-precinct-plan.aspx>

The precinct structure plan straddles the administrative border between the Shire of Peppermint Grove and the Town of Cottesloe. A community engagement consultant has been appointed and the majority of the technical reporting has been completed. The Precinct Structure Plan is forecast to be finalised in late 2023. The Cott Village Project is a critical strategic planning project that seeks to facilitate greater connectivity between the Cottesloe Train Station and commercial and civic development within the Shire and inform future development controls to facilitate revitalisation of the shared activity centre including the introduction of compatible residential built form. It is anticipated that the Precinct Structure Plan will inform a suite of changes to the local planning policy framework.

The nature of residential development is notable for significant restorations and additions to heritage listed places. The Shire has over the course of the current local planning scheme fought to prevent the demolition of heritage listed places in line with community expectations. A Heritage Grants Scheme operates to provide financial assistance for restoration works and to increase awareness around heritage conservation.

The DPLH subdivision statistics by local government area from the March 2017 to March 2023 quarters inclusive identify that subdivision applications to create 50 lots were lodged, and final approvals granted for 25 lots. Of these subdivision proposals, only two non-residential subdivision applications were lodged and approved.

From the March 2017 to March 2023 quarters inclusive there were 296 building permits granted in total, 20 of which were for new dwellings.

From the March 2017 to March 2023 quarters inclusive there were 42 Building Permits granted for class 2-9 development. Notable commercial development activity has included education facilities associated with the Presbyterian Ladies College, construction of the Scotch College boatshed, internal works and maintenance activities associated with the Cottesloe Central Shopping Centre, and building improvement works for a number of premises between 484 and 494 Stirling Highway.

There are no industrial or rural land uses in the Shire.

Population Change

The 2021 ABS data identified a population of 1,597 occupying 613 private dwelling. The population declined by 39 persons although the number of private dwellings was unchanged from the 2016 ABS data.

Population growth as forecast by WA Tomorrow 2016-2031 is based on 2016 estimates that were approximately 4.8% (79 persons) that that recorded in the ABS data. Notwithstanding this discrepancy and modelling being subject to change, the band C projection forecasts the 2021 population increasing 34.6% to 2,150 persons in 2031. This growth scenario is unlikely to be achieved without a major redevelopment of the Cottesloe Central Shopping Centre, in addition to further rezoning or recoding initiatives within the Stirling Highway corridor. It is further noted that redevelopment of the Cottesloe Central Shopping Centre is not anticipated prior to 2035 due to lease commitments with their anchor tenant (Woolworths) and any subsequent approval and construction phase.

Anecdotally, there is no critical pressure on current infrastructure, although the mobile phone network is lacking and relies on low impact rooftop facilities at the Cottesloe Central Shopping Centre and facilities located within the abutting local government areas. Traffic congestion along Stirling Highway and connectivity between the town centre and the Cottesloe Train Station are matters that have been flagged as part of the Cott Activity Centre Project.

Consultation

There has been no formal consultation which has been undertaken to date as part of the LPS4 review process. Councillors have; however, been briefed as to the options available to the Shire and potential provisions that could be investigated and/or modified. Potential key amendments would be subject to a workshop process to ascertain preliminary support. Where preliminary support is confirmed, these potential amendments will form part of future community consultation.

The Shire's budget for the 2022/23 financial year includes an allocation to review of the Strategy. It is our position (as discussed and agreed with DPLH planners) that sufficient separation between the imminent community consultation for the Cott Village Project and that for the new Strategy to mitigate the risk of confusion between the initiatives and consultation 'fatigue'. The Shire anticipates the appointment of community engagement consultants for the new Strategy subsequent to the finalisation of the Cott Village Project in late 2023.

Officer's Comments

LPS4 is in the model scheme text format and is largely fit for purpose in combination with the suite of local planning policies and the Residential Design Codes. Notwithstanding there are gaps, particularly around commercial development within the activity centre.

It is considered best practice in accordance with the Planning manual - Visual landscape planning in Western Australia that a formal visual landscape assessment be undertaken to identify areas of local or regional landscape significance that may otherwise inform targeted

controls. The Peppermint Grove foreshore and Keanes Point Reserve precinct is however, recognised as being culturally significant. Such assessment would logically form part of any future community consultation process.

There is anecdotal evidence including through the consultation for the current Strategy that the community is supportive of protecting the garden suburb attributes that have evolved as a direct result of the local planning policy framework working in unison with the state planning policy framework. Scheme provisions to mitigate the loss of habitat trees on private land as championed by the Cities of South Perth and Nedlands needs further investigation. A scheme-based control that affords greater protection than the Residential Design Codes and Environmental Protection (Clearing of Native Vegetation) Regulations 2004 has preliminary Council support.

ABS population data has shown a slight decline in population during the last census reporting period. Limited lot creation and vacant sites fronting Stirling Highway or in singular ownership for which redevelopment would appear feasible is currently limiting the ability to meet state government infill population targets. Infill population continues to be driven by market factors.

Intensification of residential densities within the Stirling Highway corridor remains the logical response to achieving population targets rather than wholesale recoding that would place at risk the very fabric of what has made the Shire a desirable place to live. Consideration of how best to transition from the current higher residential densities and commercial land uses fronting Stirling Highway to the lower densities will be a key focus of any future strategic planning process. The obvious response is the recoding of R12.5 and R15 lots that are not heritage listed that immediately abut R80, Mixed Use (R80), District Centre to R40. R40 would facilitate grouped dwelling development or terraced housing to diversify housing stock whilst positively contributing to the existing high-quality streetscapes. Consideration should also be given to the recoding of R12.5 lots that immediately abut land reserved for Civic and Community Purposes, and extending transitional medium density coding beyond immediately abutting lots where logical to do so. Indicatively, 20 house sites over 23 lots have been identified including two lots subject to a current recoding amendment.

The community reference group workshop stage for the Cott Activity Centre Project has recently concluded and will inform a number of changes to the local planning policy framework. The current local planning policy framework is poorly equipped guide large-scale commercial redevelopment. The Precinct Structure Plan will require additional controls to guide development towards the aspirational outcomes sought. The means to implement such controls are yet to be confirmed but will likely require the development of a local planning policy in addition to Strategy and scheme amendments. The present local planning scheme references the need to comply with an activity centre plan that is poorly defined. It is anticipated that the future Precinct Structure Plan will introduce more specific controls, inform the Strategy, be referenced in the local planning scheme, and be supported by local planning policy.

Consideration should be given to 'fine tuning' the current scheme provisions, particularly the mixed use and district centre zone objectives contained in Table 2 and the additional site and development requirements zone objectives contained in clause 32.

More recent development trends to create roof top terraces and decks are largely uncatered for in the local planning policy framework. The Towns of Mosman Park and Cottesloe approach to address these spaces through local planning scheme provisions may guide a consistent approach across our neighbouring jurisdictions. It is the shire's current position that roof top terraces should not contribute to open space.

A new Local Planning Strategy will inform changes to LPS4. The Strategy does not align with the structure specified by the 2021 Guidelines (e.g. no planning directions and action table). It is proposed that the Strategy is prepared concurrent with an Omnibus Scheme Amendment.

Recommendation

That Council, pursuant to Regulation 66(3) of the Planning and Development (Local Planning Schemes) Regulations 2015 recommend to the Western Australian Planning Commission that the Shire of Peppermint Grove Planning Scheme No. 4 should be amended through the preparation of an Omnibus Amendment informed by a new Local Planning Strategy and to have specific regard subject to further investigation and community consultation to the following matters:

1. Strategic planning works associated with the Cott Village Project to inform subsequent LPS4 amendments including recoding, development controls under clause 33 'additional site and development requirements for areas covered by structure plan or local development plan'. Clause 26(1) to reference "subdivisions or development is to generally comply with any adopted precinct plan that applies to the land.
2. Recoding of R12.5 and R15 lots in the immediate vicinity R80, Mixed Use (R80), District Centre and land reserved for Civic and Community purposes to R40.
3. Review and revise the mixed use and district centre zone objectives contained in Table 2 and the additional site and development requirements zone objectives contained in clause 32.
4. The activation of rooftop terraces and their implications on the amenity of neighbours and suitability to contribute to open space.
5. Investigate means to effectively retain significant habitat trees through scheme provisions in lieu of a voluntary Significant Tree Register.
6. Review of zoning table land uses with the potential to include family day care, short stay accommodation and telecommunications infrastructure.
7. The suitability of certain signage is largely uncatered for in the local planning policy framework. Exemption of advertisements should reference compliance with any new Signage Local Law or accepted controls (such as pylon signs not exceeding 6 metres) incorporated into the scheme provisions.
8. Address split zoning that is understood to be limited to 7 Irvine Street.
9. Respond to the foreshadowed changes to the Deemed Provisions (model scheme text changes).
10. General 'tidy up' to address current state planning policy, any change of state government department name and the like as applicable.

Introduction to the Shire of Peppermint Grove

With a rich history dating back to 1832 and the early settlement of the Swan River Colony, the Shire of Peppermint Grove is known for its beauty and heritage boasting large character homes, a stunning river foreshore, beautiful gardens and shady streets lined with peppermint trees.

Many generations of families have lived in Peppermint Grove and there is a strong sense of community often not found in metropolitan communities.

With an area of only 1.36 square kilometres, the Shire prides itself on providing personalised services to its 1,597 residents who reside in a predominantly residential community. Considered to be a highly desirable suburb, Peppermint Grove has an above average socio-economic profile. Much of the Shire's activities relate to the development or redevelopment of large residences.

The maintenance of the suburb's amenity, particularly its trees, foreshore and reserves, is a high priority for residents.

Some interesting statistics about the Shire include:

Distance from Perth:
13km

Area:
1.36km²

Length of sealed roads:
10.6km

Population:
1,597

Number of Electors:
1,153

Number of Shire Full Time Employees (FTE):
10

Number of dwellings:
588

Total Revenue:
\$3.8 million

Total Rates Levied:
\$3.4 million

Number of Grove Library FTE:
8

Apart from the peppermint tree lined streets and pristine Freshwater Bay, some attractions in the Shire include:

- Freshwater Bay boating jetties
- Freshwater Bay foreshore beach reserve
- Royal Freshwater Bay Yacht Club
- Keane's Point parkland and barbeque facilities
- Keane's Point children's play equipment
- Manners Hill Park Reserve
- Manners Hill Pavilion
- Australia Day Festivities
- Peppermint Grove Tennis Club
- Presbyterian Ladies College
- Cottesloe Primary School
- The Grove Library
- Freshwaters Café
- The Community Centre
- Peppermint Grove Heritage Trail
- Carols by Candlelight
- St Mary Star of the Sea Church
- St Columba's Church
- Cottesloe Central Shopping Centre
- Whadjuk Trails Network
- Grove Coffee Café (Library).

The Shire President's message

It is my pleasure to present the Annual Report for the Shire of Peppermint Grove for the 2021/2022 financial year.

I'm pleased to report that the Shire completed the year with an operating surplus and with a clean bill of health from the auditors. A full set of accounts are included in this report.

Whilst there have been some continuing impacts from the COVID-19 pandemic, the Shire has had a positive year. Our development applications and building licenses have increased in comparison to previous years; library membership numbers are returning to pre-COVID levels; children's rhyme time and other library activities have had increased participant numbers; and events such as Carols by Candlelight and Australia Day were very well attended.

In 2021/22 we continued to focus on asset management to ensure that our buildings, parks, roads and drainage are all maintained to a high standard. The Shire was successful in receiving grants from the Federal Government as part of COVID-19 economic stimulus packages. These grants were used to upgrade the footpath along Stirling Highway and to replace all of the Shire's bench seats, picnic tables, bins and park bollards. As part of our asset management planning responsibilities, we increased the Shire's reserve funds by \$500,000 during the year to \$1.67 million.

The Council adopted a Street Tree Management Strategy for the Shire's trees on road verges

and in parks. The Shire places a high value on our trees, particularly the peppermint trees. The Strategy defines how and when trees are pruned; when they will be removed and replaced; and how new construction is managed around these trees. A copy of the Strategy is on the Shire's website.

Local government elections were held during the year and I congratulate Charles Hohnen, Karen Farley and Patrick Dawkins on their re-election to Council. I also congratulate and welcome new councillor, Doug Jackson. I would like to acknowledge and thank departing councillor, Greg Peters, for his 12 years of service to the Peppermint Grove community. My thanks to all councillors for the support that they give to me and for their commitment to the well-being of the Shire and its residents.

Finally, I would like to thank the Shire's management and staff for their hard work during the year and their continued focus on customer service, good governance and sound financial management.

Rachel Thomas
Shire President

A message from the Chief Executive Officer

I am pleased to present the Annual Report, incorporating the financial statements for 2021/2022. The Shire has again received a clear audit report.

I have previously reported on the steps that the Shire is taking to ensure that we are fiscally responsible and are planning for the future. The Shire has an Asset Management Plan that is reviewed annually and identifies the funding provision required for future years to either maintain the asset or replace it. The Shire's biggest assets are the road network, footpaths, drainage and the Shire's share of the Grove Library and administration building.

Initial expectation when COVID started was that the economy would struggle, however Shire has seen the opposite with plenty of activity in the building sector in the Shire. Further into this report the Manager Development Services will expand of development applications and building licenses issued.

The green amenity of the Shire is very important to the Shire staff. A Tree Management Strategy was adopted that provides guidance on how the Shire's trees on verges and in the parks will be managed. A tree audit was completed, and the tree inventory now notes the condition of each tree and any special requirements going forward.

I would like to thank the Shire President and Councillors for their support and strong leadership throughout the 2021/2022 year. I also thank my managers and staff for their professionalism and dedication to the task of providing a high level of service to the residents of the Shire.

Don Burnett

2021–2031 Strategic Community Plan

Our Strategic Community Plan responds to the community’s key areas of interest.

Our Goal and Objectives for each strategic priority area over the next 10 years are as follows:

Strategic Priority	Objectives
1. Social	
Goal: “A community enjoying high levels of wellbeing and safety”	<ul style="list-style-type: none"> 1.1 Maintain/increase actual and perceived safety and security. 1.2 Facilitate age-appropriate services, particularly for seniors and youth. 1.3 Preserve and promote local history and heritage. 1.4 Promote community connection and activation.
2. Economic	
Goal: “Diverse and flourishing local economy”	<ul style="list-style-type: none"> 2.1 Improved local business centres. 2.2 Facilitate options for customers and visitors. 2.3 Effective relationships with local businesses.
3. Built Environment	
Goal: “Perpetual character and inviting, accessible and connected amenities”	<ul style="list-style-type: none"> 3.1 Perpetual character of Peppermint Grove. 3.2 Inviting, accessible and connected Shire.
4. Natural Environment	
Goal: “Preserved natural environment and minimised environmental impact”	<ul style="list-style-type: none"> 4.1 Protect and enhance Peppermint Grove’s natural environment and biodiversity. 4.2 Maintain a clean, healthy and sustainable environment. 4.3 Protect our natural resources for future generations.
5. Governance	
Goal: “Aligned and accountable Council and Community Leadership”	<ul style="list-style-type: none"> 5.1 Provide accountable and transparent leadership. 5.2 Engage, communicate and consult with our community and stakeholders. 5.3 Advocate to reflect the community’s Vision. 5.4 Sustainable and optimal use of Shire resources.

2021–2025 Corporate Business Plan

The Corporate Business Plan outlines the Shire's key priorities and actions for a 4-year period.

The plan is informed by the Strategic Community Plan and aims to integrate the community's aspirations into the Shire's operations.

The Strategic Community Plan and the Corporate Business Plan form part of the WA Governments Integrated Planning and Reporting Framework. The 2021–2022 Annual Report provides information on the activities and projects that have been undertaken to achieve the objectives contained in the 2021–2025 Corporate Business Plan.

Community and Social Strategies 2021–2022

The Grove Library has continued to provide a quality service to the community during these uncertain times.

Children’s Rhyme time and Story time have continued to be popular, with the Youth Services Coordinator increasing the number of Rhyme time sessions to allow for larger numbers and social distancing. Community History has produced a number of excellent exhibitions on notable locals and working with Adult Services have undertaken a series of Memories events to harvest photos and oral histories from residents.

E-services has provided quality Tech help to the community through PLC tech help, group workshops and Friday volunteer tech help.

The lessening effects of COVID-19 have seen a return of parents and children to the library with a subsequent increase in circulation for the junior collection, but the adult and senior patrons have been slower to return meaning a small decrease in usage. E-services have continued to grow throughout the year especially in the e-audio books and e-magazines that have both benefitted from direct promotion to the patrons.

Active library memberships are down from the previous year, but the majority of the fall can be

attributed to a 700 reduction in library use by people from outside of the Western Suburbs Library Group (WSLG) area.

The Community Centre hosts numerous community groups such as West Coast Community Centre, Men’s and Women’s Probus Clubs, and U3A, which provide a wide range of recreational and social programs for local residents.

Grove Library and Community Centre

- Book loans increased by 6.3% to 189,636, with the use of e-services increasing by 33% to a total of 34,391 at around 15% of total loans. The rise in e-services can primarily be put down to the promotion of e-audio books as the library moves away from the CD audio book format.
- Technology help for seniors was offered in conjunction with students from PLC, and a small team of dedicated volunteers.
- The Grove Classics the annual series of classical music concerts were postponed until October due to COVID restrictions on numbers. The events once staged, proved

to be well supported by local audiences. The inclusion of a one-off event, the Valentine's Day Champagne Concert, also proved very popular.

- Eight book groups held their regular meetings at The Grove.
- Four art exhibitions featuring local artists were held.
- West Coast Community Centre hosted 196 events, down from 279 pre-COVID. These events were impacted by the reduced capacity in the Community Centre (down from 100 to 48 maximum capacity) and cancellation of some programs by users due to lockdowns and restrictions. Total attendance of all events at the Community Centre was 8,045.

Library Services to Children and Students

- Due to the COVID restrictions on numbers Baby Rhyme Time sessions were doubled to reduce the number of patrons in each session. The library now runs 6 sessions a week. These sessions continued through the school holidays. Total sessions run 253; Attendance approx. 9,955 toddlers and parents.
- The Youth Services Librarian visited every school, kindergarten and playgroup in the Shire throughout the year.
- 114,701 children's books were loaned, an increase of 13% on the previous year.
- 890 students came to the Library from local schools for Children's Book Week (CBW), with an additional 482 attending CBW school outreach events.

- Turning Points in History for 9–12 year olds. A new series specifically designed to cover historical events not covered by current school curriculums. Attendance for each session ranges from 18–24 students per session.

Community History

The Grove's Community History Library collects and curates the history of the suburbs of Mosman Park, Cottesloe and Peppermint Grove, with an emphasis on digital preservation and dissemination.

- The Community History Librarian raided the archives for an exhibition to help celebrate the 10th anniversary of the opening of The Grove Library.
- Two themed "Memories" events were held. These events were designed to help bring in photos and oral histories from the people who grew up in the area during the 50's and 60's. The event presented the attendees with a panel discussion that allowed them to share their childhood memories of growing up in the area.
- Two Community History exhibitions, held in the library main hall, celebrated the lives of prominent residents. The exhibitions, for Dr Blackall who served the needs of local residents during the first half of the 20th century and the Earle Sisters who crusaded for women's rights were both well attended.
- Community History undertook 211 enquiry searches (property searches etc.) and 17 Oral history interviews within the year.

DISCOVER IN
THIS PLACE

WHICH IS
IMPORTANT

Carols by Candlelight

The Shire's annual Carols by Candlelight was held at Manners Hill Park on Sunday 12 December 2021 and was led by the Mighty Camelot Choir and Balga Community Band. This event always proves to be popular attracting approximately 500 people. The occasion provides an opportunity to catch up, it unites local residents, friends and family. As has been the tradition for over twenty years the Shire supports The Salvation Army who in turn gives all proceeds raised on the night to the BALGA Early Learning Centre. The centre supports underprivileged children as well as struggling families at Christmas who are in need of assistance. Our volunteers encourage local businesses to donate fabulous prizes and we raise money by selling raffle tickets and song books.

Australia Day 26th January 2022

The Combined Councils of Shire of Peppermint Grove and Towns of Cottesloe and Mosman Park amalgamate for this event. 2022 was hosted by the Shire of Peppermint Grove in the spacious grounds of Manners Hill Park in Peppermint Grove, the location and weather were perfect. The event was attended by over 400 people and included Welcome to Country, Citizenship Ceremony welcoming 58 new citizens to the community, an Affirmation Ceremony, 9 Citizen of the Year Awards were presented as well as a free sausage sizzle and refreshments for the Community.

Jenny Davis, Australia Day Ambassador, gave the Australia Day Address. Shire President Rachel Thomas, together with Jenny Davis, awarded Graham Dart Citizen of the Year. Graham has been the Principal of Cottesloe Primary School for over ten years. Under his stewardship, Cottesloe Primary has developed a reputation for having a supportive, inclusive and positive learning environment focusing on excellence in learning, the development of critical and creative thinking and the fostering of strength of character.

As a result of Graham's commitment to the positive culture he has fostered at the school, it now attracts highly capable and well credentialed teachers, all of whom give up significant amounts of their own time to run everything from Drama and Performing Arts clubs to sporting groups.

Graham has ensured that a school that is over 120 years old continues to develop and adapt to provide a broad and inclusive education that engages and challenges its students.

and Citizen of the Year Graham Dart
with Rachel Thomas.

Above: Team 32, recipients of the Active Citizenship – Community Group Award of the Year, with Rachel Thomas.

Right: Australia Day 2022: new citizens, Citizens of the Year and residents.

Rachel Thomas, together with Jenny Davis, also awarded Peter Iancov and Team 32 the Active Citizenship – Community Group Award of the Year. Peter built a team of people from across Perth walking every weekend in preparation to raise money for worthy causes. They have raised money every year for 7 years and are incredibly active and loyal supporters of the Harry Perkins Institute of Medical Research. The Harry Perkins Institute hold an annual walk to raise funds for Women’s Cancer Research and in 2021 Peter and Team 32 were the highest fundraisers in the entire event.

Their continuous fundraising and commitment to a number of important charitable causes also includes supporting: The Black Dog Institute, Beyond Blue and Legacy which supports the families of our veterans.

Seniors Morning Tea

During Seniors' Week 2021 on November 8th we held the annual Seniors' Morning Tea in collaboration with the Towns of Mosman Park and Cottesloe at the Mosman Park Bowling Club, the location offered magnificent views over the Swan River. The morning acknowledges seniors and provides an opportunity to show our appreciation for their valued contribution to the community.

The high-tea style event included two sets of entertainment from 7th Heaven—the duo sang an assortment of popular vintage tunes from 1940's–1960's to the delight of those fortunate enough to have attended. Seniors were also able to enjoy the possibility of winning multiple door prizes which consisted of an assortment of potted plants as well as a magnificent Garden Hamper kindly donated by Bunnings Claremont.

Volunteers

A Volunteer Resource Centre is located in the "Pod" in the library each Monday. This service is provided by the Nedlands Volunteer Resource Centre and provides information about volunteering, local volunteer positions available and has assisted many residents find a suitable volunteering role.

From top:
The Seniors' Morning Tea; and

“Promote community connection and activation...”

Wardrobe Refresh

The Shire remains supportive of the work done by the Western Metropolitan Regional Council (WMRC) including the courses that are run out of The Grove each year. In October we created a sense of community by running a Wardrobe Refresh for adults which was hugely successful. Clothing swaps are a great way to exchange items you no longer require for items you like or need. They promote slow versus fast fashion and are an environmentally friendly reuse strategy that helps reduce our environmental footprint while supporting a circular economy. The manufacturing of textiles has harsh impacts on the environment, such as the disposal of large amounts of chemicals, resulting in contamination of water resources or other natural resources that are essential to both human and animal life.

Cloth Nappy Workshop

In November in conjunction with WMRC we held another Cloth Nappy workshop in the Community Room for expectant mothers, new mothers and young families which was very successful detailing the benefits of cloth compared to disposables. Cloth nappies are environmentally friendly, even using them part-time makes a significant reduction to a person's landfill contribution.

Above: The recycling hub in the Shire's foyer.
Below: October's Wardrobe Refresh was well attended.

The Recycling Hub

Located in The Grove foyer for residents and library members the Recycling Hub is always a popular and convenient drop off point to place batteries, globes and printer cartridges for recycling.

Unfortunately some of the Shire's other workshops such as Wardrobe Refresh for children and seminars scheduled for 2021–2022 were postponed or cancelled due to the COVID-19 pandemic.

Built and Economic Environment 2021–2022

Services and Staffing

The business activity area combines Urban Planning, Building Regulation and Asset Management, and Environmental Health and Ranger Services. Development Services reporting and administration is undertaken by two (2) full-time technical staff.

Regulatory services are provided in accordance with Federal and State legislation and are informed by a diverse regulatory framework that includes local laws, technical standards, the Local Planning Scheme and suite of local planning policies.

The Shire has a number of Service Agreements with other local government authorities to fulfil statutory requirements as follows:

- Town of Cottesloe – Environmental Health and Rangers
- City of Nedlands – Building Certification and Compliance
- City of Nedlands – Swimming Pool Compliance
- Town of Claremont – Building Maintenance and Project Management

Continuous Improvement

During the 2021–2022 reporting period a new Manager of Development Services was appointed who commenced an operational review of the business activity area. Implementation of the review findings is expected to extend into the following reporting period. Key focus areas of the review included:

- Service Agreement performance, tracking and oversight
- Shire website and documentation including application forms, letter and permit templates, and information sheets
- The local planning policy framework
- Process mapping approvals processes
- Planning and building approval conditions and advice notes
- Compliance and enforcement activities

“Perpetual character and inviting, accessible and connected amenities...”

Opposite page: The Scotch College Boat Shed, due for completion in late 2022.

Revenue

Notwithstanding that revenue generation is not a driver of the services provided, the principles of cost recovery is a key consideration for determining many of the non-statutory fees and charges. Development Services fees and charges are reviewed prior to the commencement of each financial year to ensure fees and charges reflect the time taken and disbursement costs for the services we provide. In the 2021–2022 financial year Development Services generated \$162,000 in total revenue.

Urban Planning

Development Trends

The Shire predominantly comprises low density residential land containing single detached houses. Higher density residential development including multiple and grouped dwellings are focused along, or in close proximity, to Stirling Highway. Commercial and civic areas are also focused on Stirling Highway and include the Grove Civic precinct, and Cottesloe Central shopping centre.

In 2021–2022 the COVID recovery trend was reflected in the increased value of building construction works since 2017–2018. A small number of larger residential properties continue to be subdivided, and the creation of new lots facilitate corresponding applications for new houses. Redevelopment of heritage listed places continues to result in innovative re-thinking of how an older style house may be refreshed to give it contemporary appeal. A limited number of applications for commercial development and associated works were received.

Urban infill development and increased residential densities in neighbouring local government areas has resulted in increased pressure on local roads and rights-of-way.

From top: 10A Keane Street is an example of contemporary design featuring open aspect front fencing; and 45 Irvine Street is an example of innovative redevelopment.

The PLC Music Room an example of commercial building work.

Whilst community feedback has historically advised that wholesale changes to rights-of-way are not desirable, redevelopment pressures will inevitably raise issues due to the varying and limited widths and standard of surface treatments.

Determination of major development through the development assessment panel process and subdivision are processes controlled by the Western Australian Planning Commission (WAPC). Although the Shire provides comment to the WAPC on subdivision applications the advice is not necessarily adopted in full. The Shire continues to work with developers to minimise the impact of subdivision to other property owners; however, the Shire accepts that the governance around subdivision and infill development are ultimately the responsibility of the WAPC in their remit as decision-maker.

Planning Applications and Deemed-to-Comply Checks

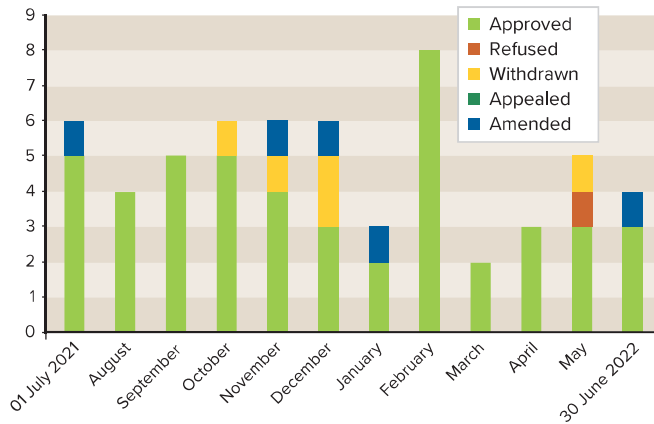

Due to their scale and complexity most planning applications for residential development seek to vary design requirements of the local planning policy framework and/or the Residential Design Codes of Western Australia (R-Codes) and/or involved a property on the Shire's Municipal Heritage List. A high degree of specialised design is typically required for projects to fully satisfy the Shire Policies and strategy. As such, most planning applications are determined at Council Meetings rather than issued under delegated authority.

The Shire continues to promote pre-lodgement discussions for development applications to identify site constraints and variations to the local planning policy framework early in the assessment process. Such discussions allow plans to be refined and improved design outcomes. In 2020–2022 no proponents sought to review a decision or condition of approval of Council at the State Administrative Tribunal. Lack of tribunal attendance is considered a strong indicator of sufficient engagement with proponents and broad acceptance of Council determinations. Acceptance of planning decisions results in downstream efficiencies in the issuance of Building Permits and commencement of building works.

For the 2021–2022 reporting period the Shire determined 44 Planning Permits representing over \$48.6M in construction costs and generating \$96,569 in revenue.

“Diverse and flourishing local economy...”

Additionally, five (5) permits were amended. Four (4) Deemed-to-Comply checks that assess the compliance of a proposed development with the R-Codes and local planning policy framework were also performed.

Planning applications determined by month

Cott Village Local Structure Plan

The Cott Village activity centre on Stirling Highway is the community hub for shopping, dining and leisure experiences. The centre has grown and adapted to lifestyle changes over the past 100 years. The centre is currently transitioning towards larger scale mixed use developments that will deliver housing diversity, increased density, and vibrancy.

In August 2019 the Shire joined with the Town of Cottesloe to initiate research to determine how best to reinvigorate the Cott Village and improve resilience. In August 2021 the Government introduced *State Planning Policy 7.2 – Precinct Design* to guide the planning of precincts. To comply with this policy more detailed investigation, community consultation and reporting was necessary. The finalisation of a precinct structure plan will provide design guidance for the centre overall and inform a future Local Planning Strategy, and amendments to the Local Planning Scheme and local planning policies. The design guidelines will seek to retain our local character, whilst encouraging investment to update buildings, facilities and service offerings.

The Cott Village project will set the scene for what will be a major visioning and urban revitalisation project, as well as inform the future review of the Shire’s Local Planning Strategy and amendments to the Local Planning Scheme.

The completed research has identified several areas for improvement including:

- Improved offering of niche goods and services
- Focus on high quality of experiences and places (design and services).
- Upgrades to infrastructure and buildings to connect with the railway station.
- Maintaining the scale and human appeal of buildings and spaces.
- Calming highway traffic—better connection by encouraging local walking and cycling and access for all ages and abilities.
- Making decisions which shape Cottesloe Village as a local place which appeals to locals and visitors who appreciate our values and an attractive natural setting.

Through the development of a responsive local planning policy framework and engagement with the private sector and other levels of government and their agencies the Shire is optimistic that the quality and vitality of the Cott Village will improve. Our challenge will be to work together to facilitate sustainable development that will reinvigorate the centre and its setting for the next 100 years.

State Government Planning Reforms

The Government planning reform agenda advocates planning reform to 'cut red tape' and additionally seeks to minimise the economic impacts of COVID. The Government's Planning Reform agenda has resulted in legislative changes and amendments to policy and practice for which Shire staff are required to contribute to consultative processes, attend workshops, and provide advice to the community and developers.

Key reforms for which Development Services staff have participated in the consultation process have included:

- The proposed introduction of the Special Matters Development Assessment Panel (SMDAP) to assess development applications of state significance.
- Consultation pertaining to the *Aboriginal Cultural Heritage Act 2021*.
- Consultation pertaining to the amending of the *Residential Design Codes Volume 2 – Apartments*.

Whilst the Shire accepts the reform agenda it is obligated to work with the Western Australian Local Government Association and other stakeholders to ensure that due regard is given to the local planning policy framework and local government decision-making powers are retained as far as practical.

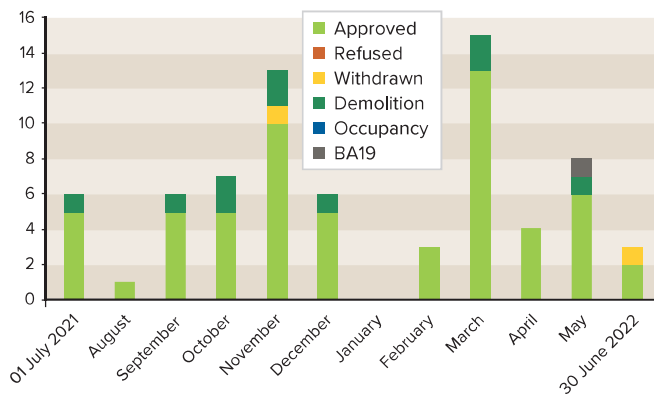

Building Regulation and Asset Management

Building Applications

The majority of building applications lodged to the Shire are certified by private building surveyors (certified applications). Shire staff have focused on implemented practices and procedures to ensure building applications better align with their respective planning approvals, and that building works are supported by construction management plans that address amenity issues including traffic management.

For the 2021–2022 reporting period the Shire issued 59 Building Permits, representing over \$28.4 million in construction costs and generating \$46,031 in revenue excluding the Building Services Levy and Building and Construction Industry Training Fund (BCITF) levy component. Revenue collected from the BCITF levy goes back to the industry to support training and skills development. Ten (10) Demolition Permits were additionally amended.

Under our Service Agreement with the City of Nedlands 60 swimming pools were inspected as part of a four-year inspection cycle to ensure compliant pool barriers are in place. Of these inspections 40% of barriers were compliant, 38% were non-compliant, and access was not granted for 22% of properties. Where access is not granted follow up inspections are sought.

Building applications determined by month

Plan Searches

For the 2021–2022 reporting period Development Services performed 33 plan searches that generated \$2,146 in application and processing fees. Digitisation of the Shire's building and planning records will commence in late 2022. The digitisation project will assist in the preservation of historical records and expedite the delivery of plan search applications.

Asset Management

The Shire manages the Grove Centre which includes a library, community centre rooms, café, Shire offices and parking station and civic gardens. The building and grounds have been progressively upgraded to maintain a high standard of amenity and safety for public use.

Investigations for the incremental replacement of timber decking commenced in 2022 and are expected to commence this calendar year.

Service agreements for ongoing building maintenance activities are continually reviewed to ensure they are cost competitive and maintain the performance of building assets and systems.

Environmental Health and Ranger Services

Food Premises Inspections

Under our Service Agreement with the Town of Cottesloe, Development Services administer duties under the *Food Act 2008*. The objectives of the *Food Act 2008* are to ensure food for sale is both safe and suitable for human consumption, to prevent misleading conduct in connection with the sale of food, and to apply the *Food Standards Code*. Food premises must be registered and are routinely inspected with the frequency of inspections reflecting their risk classification. Health officers from the Town of Cottesloe may issue Improvement Notices where standards pertaining to the handling and storage of food, equipment, or transportation is not demonstrated.

For the 2021–2022 reporting period 17 food premises licences were issued totalling \$6,865.

Liquor Licensing

Development Services is responsible for processing Section 39 and Section 40 applications under the *Liquor Control Act 1988*.

A Section 39 Certificate is issued by the Town of Cottesloe under the Service Agreement and states whether the premises, or the proposed premises complies with the *Health Act 1911* and

the *Food Act 2008*. A Section 40 Certificate is issued by Development Services and states whether the proposed use of the premises is consistent with the current planning approval affecting the property.

Noise Management

Noise limits are regulated under the *Environmental Protection (Noise) Regulations 1997* and inform permissible construction hours stipulated by Planning Permits, Demolition Permits and Building Permits.

It is not always practical for some construction and maintenance activities to be conducted within usual hours due to the need to shut down power or close roads and footpaths. Shire approval must be obtained for out of hours works, or for those that exceed permitted noise levels.

Development Services assess Construction Management Plans including Noise Management Plans and, in conjunction with Infrastructure Services, Traffic Management Plans for construction and maintenance works outside of permitted hours.

Proponents must notify noise sensitive premises, such as residences, by way of a letter drop the nature and timing of works for which noise levels may be exceeded.

Public Health Plan

Local Government is the closest level of Government to the community and provides a significant contribution to public health and mental wellbeing of the community.

The Government introduced the *Public Health Act 2016* for Western Australia which requires Local Governments to develop local public health plans. These plans provide the strategic directions focusing on prevention, health promotion and health protection strategies that aim to prevent disease, illness, injury, disability and premature death in Western Australia.

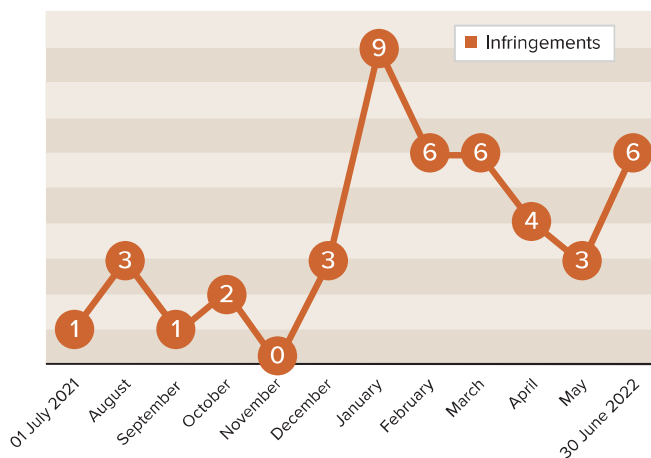

The Shire will collaborate with the Town of Mosman Park who share the same Census data collection area to commence preparation of a Community Health Plan in late 2022.

Parking Control

Under our Service Agreement the Town of Cottesloe provides parking inspection and animal control functions to the Shire. Whilst compliance is always encouraged, enforcement is necessary where non-compliance is observed, or otherwise brought to the Shire's attention.

For the 2021–2022 reporting period 44 parking infringements were issued totalling \$1,745.

Residential Parking Permits are available to residents with street frontages subject to parking restrictions, such as those to control parking around PLC and Cottesloe Primary School and in close proximity to commercial premises along Stirling Highway.

Parking infringements by month

Animal Control

All cats and dogs must be registered. There were 48 cats and 225 dogs registered in the Shire as of 21 October 2022.

The *Cat Act 2011* is about responsible pet ownership; reducing the number of unwanted cats in the community and reducing the number that are euthanised each year. All cats must be sterilised/desexed before they reach six months. For maximum health and social benefits, all kittens should be sterilised before they reach sexual maturity around three months.

The *Dog Act 1976* addresses the control and registration of dogs, the ownership and keeping of dogs; and the obligations and rights of dog owners and others. All dogs must be registered before they reach three months of age.

The registration year commences on the 1st of November each year and expires on 31st October the following year. For the 2021–2022 reporting period cat registrations totalled \$485 and dog registration totalled \$4,578.

Conclusion

Development Services is committed to working with developers, the community, and the elected members to champion sustainable, beneficial and compliant development outcomes.

Residents are welcomed to discuss development and regulatory policy matters with staff, and we encourage proponents to discuss their proposals prior to lodgement.

Staff are committed to continuous improvement and welcome feedback to ensure our service delivery meet or exceed expectations.

Natural Environment 2021–2022

The ongoing maintenance and renewal of the Shire's assets were a priority for the Infrastructure team in 2021/2022.

Some key achievements include:

Drinking fountain replacement

The old drinking fountains in Manners Hill were replaced with new modern units that include a low mounted tippable bowl so thirsty dogs can enjoy a refreshing drink too.

Schaffer 3550 Front-End Loader

As part of the Shire's Asset Management Plan, the old skid steer loader was replaced with a new articulated front-end loader. This versatile and highly manoeuvrable machine comes with a number of attachments allowing it to quickly be reconfigured from a loader, to a road sweeper, to a forklift, to a crane.

Street Trees

The Shire's tree maintenance and replacement program continued resulting in many new peppermint and tuart trees being planted on verges and in parks throughout the area. This ongoing process will ensure that Peppermint Grove's beautiful streetscapes will continue to be enjoyed for many years to come.

Water Trailer

A new water trailer was purchased which has proved useful for a number of tasks such as tree planting, graffiti removal and dust suppression.

Stirling Highway Footpath Paving Project – Phase 2

The tired old brick pavers were replaced with a new exposed aggregate product along the Stirling Highway frontage south of Irvine Street.

Shire Administration Building and Grove Library

Work continued on landscaping the grounds of the Shire's Administration Building and Grove Library.

Turf replacement

Manners Hill Park and Keanes Point had sections of damaged and compacted turf replaced with new roll-on Kikuyu.

“Maintain a clean, healthy and sustainable environment...”

Drainage Improvements and Maintenance

Work continued on cleaning and maintaining the Shire’s stormwater drainage system. New grates and pits are being installed on an ongoing basis with a focus on laneways.

Right of way upgrades

All the unpaved Rights of Way are being systematically tidied and re-sheeted with recycled road profilings.

Footpath maintenance

The footpath maintenance and replacement program continued with damaged sections replaced.

Governance Strategies 2021–2022

“ Aligned and accountable Council and Community Leadership ... ”

Recordkeeping Plan

The Shire has an ongoing commitment to recordkeeping in accordance with the *State Records Act 2000* and *Records Management Standard AS ISO 15489* through corporate systems and management/disposal processes.

The Shire’s recordkeeping plan (RKP) was adopted in 2020. There is an annual review that is undertaken to ensure compliance with the agreed plan and this is submitted to the State Records Office for their consideration.

National Competition Policy

The application of national competition policy (NCP) is guided by the Clause 7 Statement which requires annual reporting of the implementation, application and effects of NCP principles as well as structural reform of public monopolies.

Competitive Neutrality

Competitive neutrality principles apply to any significant business activities conducted by, or under the control of, a local government that generate an income of \$200,000 or more in a financial year.

In the 2021/22 financial year the Shire did not undertake any business activities that met this threshold.

Structural Reform of Public Monopolies

The Shire of Peppermint Grove is not classified as a natural monopoly nor does it conduct any business activities that could be classified as public monopolies.

Compliance Annual Return

Council is required to submit an annual return to the Department of Local Government by March each year.

The return assesses the compliance of a number of sections of the *Local Government Act* and associated *Regulations*.

The 2022 Compliance Annual Return assessed the following matters:

- Commercial Enterprises by Local Governments
- Delegation of Power/Duty
- Disclosure of Interest
- Disposal of Property
- Elections
- Finance
- Integrated Planning and Reporting
- Local Government Employees
- Official Conduct
- Optional Questions
- Tenders for Providing Goods and Services.

There were no issues of non-compliance during the 2021/22 financial year.

Disability Access and Inclusion

The Disability Access and Inclusion Plan 2017–2022 (DAIP) guides the Shire's commitment to providing equitable access to services, information, facilities, events and employment.

A copy is available at the Shire's administration office and on the Shire's website.

The DAIP sets out the Shire's priorities over five years and is due for review. Community consultation for a new DAIP for the period 2022–2027 will commence in late 2022 and be published in early 2023.

The seven outcomes of the DAIP are:

1. People with disability have the same opportunities as other people to access the services of, and any events organised by the Shire.
2. People with disability have the same opportunities as other people to access the buildings and other facilities of the Shire.
3. People with disability receive information from the Shire in a format that will enable them to access the information as readily as other people are able to access it.
4. People with disability receive the same level and quality of service from the staff of the Shire as other people receive from the staff of the Shire.
5. People with disability have the same opportunities as other people to make complaints to the Shire.
6. People with disability have the same opportunities as other people to participate in public consultation by the Shire.
7. People with disability have the same opportunities as other people to obtain and maintain employment with the Shire.

Freedom of Information

The *Freedom of Information Act 1992* allows the public the right to apply for access to information held by the Shire. The Act requires the review and adoption of a Freedom of Information Statement, a copy of which is available on the Shire's website. During 2020/21, one application was received and dealt with in accordance with the *Freedom of Information Act*.

Register of Complaints

Minor breaches of the rules of conduct or a local law of the Shire by a Council member must be recorded in a register noting the outcome of the investigation of the complaint and the action subsequently taken.

No complaints regarding such breaches were received by the Shire's Complaints Officer during 2021/22.

Equal Employment Opportunity Management Plan

The Shire has provided an annual report to the Commissioner on the equal employment opportunities for the 2021–22 financial year.

This plan assists the Shire in building a workforce and supporting a workplace culture that reflects the diversity of the local community.

Employee Remuneration

In accordance with Regulation 19B of the *Local Government (Administration) Regulations 1996* the Shire is required to disclose the number of employees with an annual cash salary of \$130,000 or more within bands of \$10,000. There is one Officer whose salary is within band \$130,000 and \$139,999.

In accordance with Regulation 19B (e) the CEO is paid a total salary of \$187,304 and consists of the following:

- Cash Salary
- Superannuation
- Vehicle Allowance
- Professional Development.

This statement is to be read in conjunction with the accompanying notes.

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

1. BASIS OF PREPARATION

The financial report comprises general purpose financial statements which have been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

The local government reporting entity

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

Judgements and estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimated fair value of certain financial assets
- impairment of financial assets
- estimation uncertainties made in relation to lease accounting
- estimation of useful lives of non-current assets

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

2. REVENUE AND EXPENSES

(a) Revenue

Contracts with customers

Recognition of revenue is dependant on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue Category	Nature of goods and services	When obligations typically satisfied	Payment terms	Returns/Refunds/Warranties	Timing of revenue recognition
Rates	General Rates	Over time	Payment dates adopted by Council during the year	Not applicable	When rates notice is issued
Grant contracts with customers	Community events, minor facilities, research, design, planning evaluation and services	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Returns limited to repayment of transaction price of terms breached	Output method based on project milestones and/or completion date matched to performance obligations as inputs are shared
Grants, subsidies or contributions for the construction of non-financial assets	Construction or acquisition of recognisable non-financial assets to be controlled by the local government	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Returns limited to repayment of transaction price of terms breached	Output method based on project milestones and/or completion date matched to performance obligations as inputs are shared
Grants with no contract commitments	General appropriations and contributions with no reciprocal commitment	No obligations	Not applicable	Not applicable	When assets are controlled
Licences/ Registrations/ Approvals	Building, planning, development and animal management, having the same nature as a licence regardless of naming.	Single point in time	Full payment prior to issue	No refunds	On payment and issue of the licence, registration or approval
Pool inspections	Compliance safety check	Single point in time	Equal proportion based on an equal annually fee	No refunds	After inspection complete based on a 4 year cycle
Other inspections	Regulatory Food, Health and Safety	Single point in time	Full payment prior to inspection	Not applicable	Revenue recognised after inspection event occurs
Waste management collections	Kerbside collection service	Over time	Payment on an annual basis in advance	Not applicable	Output method based on regular weekly and fortnightly period as proportionate to collection service
Waste management entry fees	Waste treatment, recycling and disposal service at disposal sites	Single point in time	Payment in advance at gate or on normal trading terms if credit provided	Not applicable	On entry to facility
Property hire and entry	Use of halls and facilities	Single point in time	In full in advance	Returns limited to repayment of transaction price	On entry or at conclusion of hire
Fees and charges for other goods and services	Cemetery services, library fees, reinstatements and private works	Single point in time	Payment in full in advance	Not applicable	Output method based on provision of service or completion of works
Reimbursements	Insurance claims	Single point in time	Payment in arrears for claimable event	Not applicable	When claim is agreed

Consideration from contracts with customers is included in the transaction price.

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

Revenue Recognition

Revenue recognised during the year under each basis of recognition by nature or types of goods or services is provided in the table below:

For the year ended 30 June 2022

Nature or type	Contracts with customers	Capital grant/contributions	Statutory Requirements	Other
	\$	\$	\$	\$
Rates			3,437,101	
Operating grants, subsidies and contributions	113,604			
Fees and charges	298,408			
Interest earnings	7,899		18,634	
Other revenue				12,135
Non-operating grants, subsidies and contributions		187,493		
Total	419,911	187,493	3,455,735	12,135

For the year ended 30 June 2021

Nature or type	Contracts with customers	Capital grant/contributions	Statutory Requirements	Other
	\$	\$	\$	\$
Rates			3,347,309	
Operating grants, subsidies and contributions	215,736			
Fees and charges	267,759			
Interest earnings			4,815	10,835
Other revenue				374
Non-operating grants, subsidies and contributions		49,658		1,000
Total	483,495	49,658	3,352,124	12,209

REVENUE AND EXPENSES

	Note	2022 Actual	2022 Budget	2021 Actual
		\$	\$	\$
Revenue (Continued)				
Rates instalment and penalty interest (refer Note 25(b))		26,532	35,200	15,651
Auditors remuneration				
- Audit of the Annual Financial Report		25,000	25,000	27,400
- Other services		4,200	2,000	7,250
		29,200	27,000	34,650
Borrowings	27(a)	54,375	54,964	59,418
		54,375	54,964	59,418
Sundry expenses		46,904	109,732	140,916
		46,904	109,732	140,916

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

3. CASH AND CASH EQUIVALENTS

Cash at bank and on hand
Total cash and cash equivalents

Held as
 - Unrestricted cash and cash equivalents
 - Restricted cash and cash equivalents

Note	2022	2021
	\$	\$
	2,361,797	2,141,936
14(a)	2,361,797	2,141,936
	690,593	851,173
14(a)	1,671,204	1,290,763
	2,361,797	2,141,936

SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of six months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

Restricted financial assets

Restricted financial asset balances are not available for general use by the local government due to externally imposed restrictions. Restrictions are specified in an agreement, contract or legislation. This applies to reserves, unspent grants, subsidies and contributions.

Details of restrictions on financial assets can be found at Note 14.

4. OTHER FINANCIAL ASSETS

(b) Non-current assets

Financial assets at fair value through profit and loss

Financial assets at fair value through profit and loss

Units in Local Government House Trust

	2022	2021
	\$	\$
	19,451	17,517
	19,451	17,517
	19,451	17,517
	19,451	17,517

SIGNIFICANT ACCOUNTING POLICIES

Other financial assets at amortised cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Fair values of financial assets at amortised cost are not materially different to their carrying amounts, since the interest receivable on those assets is either close to current market rates or the assets are of a short term nature. Non-current financial assets at amortised cost fair values are based on discounted cash flows using a current market rates. They are classified as level 2 fair values in the fair value hierarchy (see Note 22 (i)) due to the observable market rates.

Interest received is presented under cashflows from operating activities in the Statement of Cash Flows where it is earned from financial assets that are held for cash management purposes.

Financial assets at fair value through profit and loss

The Shire classifies the following financial assets at fair value through profit and loss:

- debt investments which do not qualify for measurement at either amortised cost or fair value through other comprehensive income.
- equity investments which the Shire has not elected to recognise fair value gains and losses through other comprehensive income.

Impairment and risk

Information regarding impairment and exposure to risk can be found at Note 20.

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

5. TRADE AND OTHER RECEIVABLES

Note	2022	2021
	\$	\$
Current		
Rates receivable	37,307	14,092
Trade and other receivables	65,673	17,602
	102,980	31,694
Non-current		
Lease receivables	92,709	98,504
	92,709	98,504

SIGNIFICANT ACCOUNTING POLICIES

Trade and other receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for grants, contributions, reimbursements, and goods sold and services performed in the ordinary course of business.

Trade and other receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value.

Impairment and risk exposure

Information about the impairment of trade receivables and their exposure to credit risk and interest rate risk can be found in Note 20.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to

6. PROPERTY, PLANT AND EQUIPMENT

(a) Movements in Balances

Movement in the balances of each class of property, plant and equipment between the beginning and the end of the current financial year.

Note	Land	Buildings - non-specialised	Buildings - specialised	Total land and buildings	Furniture and equipment	Plant and equipment	Total property, plant and equipment

for the year ended 30 June 2022

6. PROPERTY, PLANT AND EQUIPMENT (Continued)

(b) Carrying Value Measurements

Asset Class	Fair Value Hierarchy	Valuation Technique	Basis of Valuation	Date of Last Valuation	Inputs Used
(i) Fair Value					
Land and buildings					
Land	Level 3	Current Replacement Costs	Independent Expert Valuer	June 2022	Current Replacement Costs/ Condition Assessment (Level 2) & Residual Values and Estimated Remaining Lives (Level 3)
Buildings - specialised	Level 3	Current Replacement Costs	Independent Expert Valuer	June 2022	Current Replacement Costs/ Condition Assessment (Level 2) & Residual Values and Estimated Remaining Lives (Level 3)

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used by the local government to determine the fair value of property, plant and equipment using either level 2 or level 3 inputs.

(ii) Cost

Furniture and equipment	Cost	Cost	N/A	N/A	N/A
Plant and equipment	Cost	Cost	N/A	N/A	N/A

(b) Carrying Value Measurements

(i) Fair Value	Asset Class	Fair Value Hierarchy	Valuation Technique	Basis of Valuation	Date of Last Valuation	Inputs Used
	Infrastructure - roads	Level 3	Current Replacement Cost	Independent Expert Valuer	June 2018	Current Replacement Cost/Condition Assessment (Level 2) and Estimated Remaining Lives (Level 3)
	Other infrastructure- Footpaths	Level 3	Current Replacement Cost	Independent Expert Valuer	June 2018	Current Replacement Cost/Condition Assessment (Level 2) and Estimated Remaining Lives (Level 3)
	Other infrastructure - Drainage	Level 3	Current Replacement Cost	Independent Expert Valuer	June 2018	Current Replacement Cost/Condition Assessment (Level 2) and Estimated Remaining Lives (Level 3)
	Other infrastructure- Parks & Ovals	Level 3	Current Replacement Cost	Independent Expert Valuer	June 2018	Current Replacement Cost/Condition Assessment (Level 2) and Estimated Remaining Lives (Level 3)
	Other infrastructure- Other	Level 3	Current Replacement Cost	Independent Expert Valuer	June 2018	Current Replacement Cost/Condition Assessment (Level 2) and Estimated Remaining Lives (Level 3)

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used to determine the fair value of infrastructure using level 3 inputs.

8. FIXED ASSETS (Continued)

SIGNIFICANT ACCOUNTING POLICIES

Fixed assets

Each class of fixed assets within either property, plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognised at fair value. Assets held at cost are depreciated and assessed for indicators of impairment annually.

Initial recognition and measurement between mandatory revaluation dates for assets held at fair value

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the mandatory measurement framework, are recognised at cost and disclosed as being at fair value as management believes cost approximates fair value. They are subject to subsequent revaluation at the next revaluation date in accordance with the mandatory measurement framework.

Revaluation

The fair value of land, buildings and infrastructure is determined at least every five years in accordance with the regulatory framework. This includes buildings and infrastructure items which were pre-existing improvements (i.e. vested improvements) on vested land acquired by the Shire.

At the end of each period the carrying amount for each asset class is reviewed and where appropriate the fair value is updated to reflect current market conditions. This process is considered to be in accordance with *Local Government (Financial Management) Regulation 17A (2)* which requires land, buildings, infrastructure, investment properties and vested improvements to be shown at fair value.

Revaluation (continued)

For property, plant and equipment and infrastructure, increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss. Subsequent increases are then recognised in profit or loss to the extent they reverse a net revaluation decrease previously recognised in profit or loss for the same class of asset.

Depreciation

The depreciable amount of all property, plant and equipment and infrastructure, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income in the period in which they arise.

Depreciation on revaluation

When an item of property, plant and equipment and infrastructure is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- (i) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset. For example, the gross carrying amount may be restated by reference to observable market data or it may be restated proportionately to the change in the carrying amount. The accumulated depreciation at the date of the revaluation is adjusted to equal the difference between the gross carrying amount and the carrying amount of the asset after taking into account accumulated impairment losses; or
- (ii) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Amortisation

All intangible assets with a finite useful life, are amortised on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use.

The residual value of intangible assets is considered to be zero and the useful life and amortisation method are reviewed at the end of each financial year.

Amortisation is included within depreciation in the Statement of Comprehensive Income and in Note 8(a).

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

9. LEASES

(a) Right-of-Use Assets

Movement in the balance of each class of right-of-use asset between the beginning and the end of the current financial year.	Note	Right-of-use assets - plant and equipment	Right-of-use assets Total
		\$	\$
Balance at 1 July 2020		93,071	93,071
Depreciation		(32,155)	(32,155)
Balance at 30 June 2021		60,916	60,916
Depreciation	8(a)	(32,155)	(32,155)
Balance at 30 June 2022		28,761	28,761
Total cash outflow from leases			(33,763)
(b) Lease Liabilities			
Current			14,497
Non-current	27(b)		16,978
			31,475

Secured liabilities and assets pledged as security

Lease liabilities are effectively secured, as the rights to the leased assets recognised in the financial statements revert to the lessor in the event of default.

SIGNIFICANT ACCOUNTING POLICIES

Leases

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right-of-use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

All contracts that are classified as short-term leases (i.e. a lease with a term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Details of individual lease liabilities required by regulations are provided at Note 27(b).

SIGNIFICANT ACCOUNTING POLICIES

The Shire as Lessor

Upon entering into each contract as a lessor, the Shire assesses if the lease is a finance or operating lease.

The contract is classified as a finance lease when the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases not within this definition are classified as operating leases. Rental income received from operating leases is recognised on a straight-line basis over the term of the specific lease.

Right-of-use assets - valuation measurement

Right-of-use assets are measured at cost. This means that all right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost (i.e. not included in the Statement of Financial Position). The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which are reported at fair value.

Refer to Note 8 under revaluation for details on the significant accounting policies applying to vested improvements.

Right-of-use assets - depreciation

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shorter. Where a lease transfers ownership of the underlying asset, or the cost of the right-of-use asset reflects that the Shire anticipates to exercise a purchase option, the specific asset is amortised over the useful life of the underlying asset.

Initial direct costs incurred in entering into an operating lease (eg legal cost, cost to setup) are included in the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.

When a contract is determined to include lease and non-lease components, the Shire applies AASB 15 to allocate the consideration under the contract to each component.

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

10. TRADE AND OTHER PAYABLES

Current

	2022	2021
	\$	\$
Sundry creditors	244,695	563,013
Prepaid rates	13,647	0
Accrued payroll liabilities	0	55,406
Bonds and deposits held	108,310	84,808
Other payables Building Levies	36,122	25,255
	402,774	728,482

SIGNIFICANT ACCOUNTING POLICIES

Financial liabilities

Financial liabilities are initially recognised at fair value when the Shire becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services.

The amounts are unsecured, are recognised as a current liability and are usually paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

Prepaid rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

11. BORROWINGS

	Note	2022			2021		
		Current	Non-current	Total	Current	Non-current	Total
		\$	\$	\$	\$	\$	\$
Secured							
Debentures		36,822	654,693	691,515	34,439	691,029	725,468
Total secured borrowings	27(a)	36,822	654,693	691,515	34,439	691,029	725,468

Secured liabilities and assets pledged as security

The Shire of Peppermint Grove has complied with the financial covenants of its borrowing facilities during the 2022 and 2021 years.

SIGNIFICANT ACCOUNTING POLICIES

Borrowing costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

Borrowings fair values are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy (see Note 22(i)) due to the unobservable inputs, including own credit risk.

Risk

Information regarding exposure to risk can be found at Note 20.

Details of individual borrowings required by regulations are provided at Note 27(a).

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

12. EMPLOYEE RELATED PROVISIONS

Employee Related Provisions

Current provisions

Employee benefit provisions

Annual Leave

Long Service Leave

Non-current provisions

Long Service Leave

	2022	2021
	\$	\$
Annual Leave	86,114	73,618
Long Service Leave	117,881	108,106
	203,995	181,724
Long Service Leave	3,117	26,919
	3,117	26,919
	207,112	208,643

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave and associated on costs for services rendered up to the reporting date and recorded as an expense during the period the services are delivered.

Annual leave liabilities are classified as current, as there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period. Assessments indicate that actual settlement of the liabilities is expected to occur as follows:

Amounts are expected to be settled on the following basis:

Less than 12 months after the reporting date

More than 12 months from reporting date

Note	2022	2021
	\$	\$
Less than 12 months after the reporting date	203,995	73,618
More than 12 months from reporting date	3,117	135,025
	207,112	208,643

SIGNIFICANT ACCOUNTING POLICIES

Employee benefits

The Shire's obligations for employees' annual leave, long service leave and other employee leave entitlements are recognised as employee related provisions in the Statement of Financial Position.

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

13. REVALUATION SURPLUS

	2022	2022	2022	2022	2021	2021	2021	2021	2021	2021
	Opening	Revaluation	Revaluation	Total	Opening	Revaluation	Revaluation	Total	Opening	Revaluation

(b) Key Management Personnel (KMP) Compensation

The total of compensation paid to KMP of the Shire during the year are as follows:

	2022 Actual	2021 Actual
	\$	\$
Short-term employee benefits	751,298	695,486
Post-employment benefits	114,734	90,846
Employee - other long-term benefits	16,495	15,381
Employee - termination benefits	4,715	0
Council member costs	91,514	91,514
17(a)	978,756	893,227

Short-term employee benefits

These amounts include all salary and fringe benefits awarded to KMP except for details in respect to fees and benefits paid to council members which may be separately found in the table above.

Post-employment benefits

These amounts are the current-year's cost of the Shire's superannuation contributions made during the year.

Other long-term benefits

These amounts represent annual leave and long service leave entitlements accruing during the year.

Termination benefits

These amounts represent termination benefits paid to KMP.

Council member costs

These amounts represent payments of member fees, expenses, allowances and reimbursements during the year.

(c) Transactions with related parties

Transactions between related parties and the Shire are on normal commercial terms and conditions, no more favourable than those available to other parties, unless otherwise stated.

No outstanding balances or provisions for doubtful debts or guarantees exist in relation to related parties at year end.

In addition to KMP compensation above the following transactions occurred with related parties:

	2022 Actual	2021 Actual
	\$	\$
Town of Mosman Park

17 RELATED PARTY TRANSACTIONS

(d) Related Parties

The Shire's main related parties are as follows:

i. Key management personnel

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any council member, are considered key management personnel.

ii. Other Related Parties

An associate person of KMP was employed by the Shire under normal employment terms and conditions.

Any entity that is controlled by or over which KMP, or close family members of KMP, have authority and responsibility for planning, directing and controlling the activity of the entity, directly or indirectly, are considered related parties in relation to the Shire.

iii. Entities subject to significant influence by the Shire

An entity that has the power to participate in the financial and operating policy decisions of an entity, but does not have control over those policies, is an entity which holds significant influence. Significant influence may be gained by share ownership, statute or agreement.

iv. Joint Venture entities accounted for under the proportionate consolidation method

The Shire has a one-third interest in an environmental health and building service. The interest in the joint venture entity is accounted for in these financial statements using the proportionate consolidation method of accounting. For details of interests held in the joint venture refer to Note 14.

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

18. JOINT ARRANGEMENTS

Share of joint operations

The Shire has a 9.09 per cent interest in the Grove Library, which provides library services to the ratepayers of the Shire of Peppermint Grove, Town of Mosman Park and the Town of Cottesloe. The voting rights of the Shire is 33.33per cent. The Principal place of business of the Grove Library is 1 Leake Street Peppermint Grove WA 6011.

The Shire's interests in the Grove Library are accounted for as a joint operation using the proportional consolidation method in the financial statements. Summarised financial information of the joint operation based on IFRS financial statements as at the 30 June 2022 and the year then ended, and adjusted for the Shire's proportional interest (9.09%) is set out below.

SIGNIFICANT ACCOUNTING POLICIES

Joint operations

A joint operation is a joint arrangement where the Shire has joint control with another party to the joint arrangement. All parties to joint arrangement have rights to the assets, and obligations for the liabilities relating to the arrangement.

Assets, liabilities, revenues and expenses relating to the Shire's interest in the joint operation are accounted for in accordance with the relevant Australian Accounting Standard.

Notes to and forming part of the Financial Report

19. INVESTMENT IN ASSOCIATES

Share of Investment in WMRC

The Shire of Peppermint Grove, together with the Town of Cottesloe Claremont and Mosman Park & the City of Subiaco, have a joint venture arrangement for the provision of a waste transfer Station via the Western Metropolitan Regional Council. The Shire's interest in the joint venture as at the 30 June 2022 is 3.69% (2021: 3.69%) representing its share of the net assets of the Western Metropolitan Regional Council of \$2,964,205 (2021: \$3,253,263)

SIGNIFICANT ACCOUNTING POLICIES

Investments in associates

An associate is an entity over which the Shire has the power to participate in the financial and operating policy decisions of the investee but not control or joint control of those policies.

Investments in associates are accounted for using the equity method.

The equity method of accounting, is whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the Shire's share of net assets of the associate. In addition, the Shire's share of the profit or loss of the associate is included in the Shire's profit or loss.

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

20. FINANCIAL RISK MANAGEMENT

This note explains the Shire's exposure to financial risks and how these risks could affect the Shire's future financial performance.

Risk	Exposure arising from	Measurement	Management
Market risk - interest rates	Long term borrowings at variable rates	Sensitivity analysis	Utilise fixed interest rate borrowings
Credit risk	Cash and cash equivalents, trade receivables, financial assets and debt investments	Aging analysis Credit analysis	Diversification of bank deposits, credit limits. Investment policy
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities

The Shire does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by the finance area under policies approved by the Council. The finance area identifies, evaluates and manages financial risks in close co-operation with the operating divisions. Council have approved the overall risk management policy and provide policies on specific areas such as investment policy.

(a) Interest rate risk

Cash and cash equivalents

The Shire's main interest rate risk arises from cash and cash equivalents with variable interest rates, which exposes the Shire to cash flow interest rate risk. Short term overdraft facilities also have variable interest rates however these are repaid within 12 months, reducing the risk level to minimal.

Excess cash and cash equivalents are invested in fixed interest rate term deposits which do not expose the Shire to cash flow interest rate risk. Cash and cash equivalents required for working capital are held in variable interest rate accounts and non-interest bearing accounts. Carrying amounts of cash and cash equivalents at the 30 June and the weighted average interest rate across all cash and cash equivalents, term deposits, and Treasury bonds held disclosed as financial assets at amortised cost are reflected in the table below.

	Weighted Average Interest Rate	Carrying Amounts	Fixed Interest Rate	Variable Interest Rate	Non Interest Bearing
	%	\$	\$	\$	\$
2022					
Cash and cash equivalents	0.65%	2,361,797	0	2,361,252	545
Financial assets at amortised cost - term deposits		0	0		
2021					
Cash and cash equivalents	0.057%	2,141,936	1,290,763	850,628	545
Financial assets at amortised cost - term deposits		0	0		

Sensitivity

Profit or loss is sensitive to higher/lower interest income from cash and cash equivalents as a result of changes in interest rates.

	2022	2021
	\$	\$
Impact of a 1% movement in interest rates on profit and loss and equity*	23,613	8,506

* Holding all other variables constant

Borrowings

Borrowings are subject to interest rate risk - the risk that movements in interest rates could adversely affect funding costs. The Shire manages this risk by borrowing long term and fixing the interest rate to the situation considered the most advantageous at the time of negotiation. The Shire does not consider there to be any interest rate risk in relation to borrowings. Details of interest rates applicable to each borrowing may be found at Note 27(a).

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

20. FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit risk

Trade and Other Receivables

The Shire's major receivables comprise rates annual charges and user fees and charges. The major risk associated with these receivables is credit risk – the risk that the debts may not be repaid. The Shire manages this risk by monitoring outstanding debt and employing debt recovery policies. It also encourages ratepayers to pay rates by the due date through incentives.

Credit risk on rates and annual charges is minimised by the ability of the Shire to recover these debts as a secured charge over the land, that is, the land can be sold to recover the debt. The Shire is able to charge interest on overdue rates and annual charges at higher than market rates, which further encourages payment.

The level of outstanding receivables is reported to Council monthly and benchmarks are set and monitored for acceptable collection performance.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

The expected loss rates are based on the payment profiles of rates and fees and charges over a period of 36 months before 1 July 2021 or 1 July 2022 respectively and the corresponding historical losses experienced within this period. Historical credit loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors such as the ability of ratepayers and residents to settle the receivables. Housing prices and unemployment rates have been identified as the most relevant factor in repayment rates, and accordingly adjustments are made to the expected credit loss rate based on these factors.

The loss allowance as at 30 June 2022 and 30 June 2021 for rates receivable was determined as follows:

	Less than 1 year past due	More than 1 year past due	More than 2 years past due	More than 3 years past due	Total	Note
30 June 2022						
Rates receivable	\$ 35,503	\$ 1,804	0	0	\$ 37,307	
Expected credit loss	0.00%	0.00%			0	
Gross carrying amount					0	
Loss allowance					0	5
30 June 2021						
Rates receivable	\$ 7,975	\$ 6,117	0	0	\$ 14,092	
Expected credit loss	0.00%	0.00%			0	
Gross carrying amount					0	
Loss allowance					0	5

The loss allowance as at 30 June 2022 and 30 June 2021 was determined as follows for trade receivables.

	Current	More than 30 days past due	More than 60 days past due	More than 90 days past due	Total	
30 June 2022						
Trade and other receivables						
Expected credit loss	0.00%					
Gross carrying amount	\$ 53,658	\$ 0	\$ 738	\$ 11,277	\$ 65,673	
Loss allowance	0				0	5
30 June 2021						
Trade and other receivables						
Expected credit loss	0.00%					
Gross carrying amount	\$ 17,602				\$ 17,602	
Loss allowance					0	5

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

20. FINANCIAL RISK MANAGEMENT (Continued)

(c) Liquidity risk

Payables and borrowings

Payables and borrowings are both subject to liquidity risk – that is the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due. The Shire manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer. Payment terms can be extended and overdraft facilities drawn upon if required and disclosed in Note 14(c).

The contractual undiscounted cash flows of the Shire's payables and borrowings are set out in the liquidity table below. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	Due within 1 year	Due between 1 & 5 years	Due after 5 years	Total contractual cash flows	Carrying values
	\$	\$	\$	\$	\$
2022					
Trade and other payables	389,127	0	0	389,127	389,127
Borrowings	36,822	206,169	448,524	691,515	691,515
Lease liabilities	14,497	16,977	0	31,474	31,474
	<u>440,446</u>	<u>223,146</u>	<u>448,524</u>	<u>1,112,116</u>	<u>1,112,116</u>
2021					
Trade and other payables	728,482	0	0	728,482	728,482
Borrowings	34,439	242,990	450,752	728,181	725,468
Lease liabilities	33,762	31,475	0	65,237	65,237
	<u>796,683</u>	<u>274,465</u>	<u>450,752</u>	<u>1,521,900</u>	<u>1,519,187</u>

21. EVENTS OCCURRING AFTER THE END OF THE REPORTING PERIOD

There were no events occurring after the end of the reporting period.

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

22. OTHER SIGNIFICANT ACCOUNTING POLICIES

a) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

b) Current and non-current classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

c) Rounding off figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar. Amounts are presented in Australian Dollars.

d) Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

When the Shire applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional (third) Statement of Financial Position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

e) Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

f) Superannuation

The Shire contributes to a number of Superannuation Funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

g) Fair value of assets and liabilities

Fair value is the price that the Shire would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

h) Interest earnings

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset measured at amortised cost except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

i) Fair value hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Shire selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Shire are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of the service capacity of an asset.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Shire gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

j) Impairment of assets

In accordance with Australian Accounting Standards the Shire's cash generating non-specialised assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

For non-cash generating specialised assets that are measured under the revaluation model, such as roads, drains, public buildings and the like, no annual assessment of impairment is required. Rather AASB 116.31 applies and revaluations need only be made with sufficient regularity to ensure the carrying value does not differ materially from that which would be determined using fair value at the end of the reporting period.

k) Initial application of accounting standards

During the current year, no new or revised Australian Accounting Standards and Interpretations were compiled, became mandatory and were applicable to its operations.

New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- AASB 2020-1 Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current
- AASB 2020-3 Amendments to Australian Accounting Standards - Annual Improvements 2018-2020 and Other Amendments
- AASB 2021-2 Amendments to Australian Accounting Standards - Disclosure of Accounting Policies or Definition of Accounting Estimates
- AASB 2021-7 Amendments to Australian Accounting Standards - Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections

It is not expected these standards will have an impact on the financial report.

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

23. FUNCTION AND ACTIVITY- Statement of Objectives

(a) Service objectives and descriptions

Shire operations as disclosed in this financial report encompass the following service orientated functions and activities.

Objective	Description
GOVERNANCE To provide a decision-making process for the efficient allocation of scarce resources.	Administration and operation of facilities and services to Members of Council. Other costs that relate to the tasks of assisting elected members and ratepayers.
GENERAL PURPOSE FUNDING To collect revenue to allow for the provision of services.	Rates, general purpose government grants and interest revenue. Costs associated with raising of rates and other funding activities.
LAW, ORDER, PUBLIC SAFETY To provide services to help ensure a safer and environmentally conscious community.	Supervision of various local laws, fire prevention, emergency services and animal control.
HEALTH To provide an operational framework for environmental and community health.	Maternal and infant health, immunisation control, health inspections, pest control and preventative services.
EDUCATION AND WELFARE To provide services to disadvantaged persons, the elderly, children and youth.	Contribution towards the operations of a community services provider, Aged Persons Support Service, community centre and other voluntary services.
COMMUNITY AMENITIES To provide services to the community.	Rubbish collection and recycling services, administration of the Town Planning Scheme, maintenance of bus shelters.
RECREATION AND CULTURE To establish and effectively manage infrastructure and resources which will help the social wellbeing of the community.	Maintenance of parks and reserves. Administration of the library and community centre that services the Cottesloe, Mosman Park and Peppermint Grove localities.
TRANSPORT To provide safe, effective and efficient transport services to the community.	Construction and maintenance of roads, drainage works, footpaths, parking facilities and traffic signs. Cleaning of streets and maintaining street verges and street trees.
ECONOMIC SERVICES To help promote the Shire and its economic wellbeing.	Implementation of building controls.
OTHER PROPERTY AND SERVICES To monitor and control Council's overhead operating accounts.	Plant operation and public works overhead costs.

Notes to and forming part of the Financial Report

for the year ended 30 June 2022

(e) Arts & Culture Reserve	on-going	To enable the purchase of Public Art
(f) Legal Costs Reserve	on-going	To provide for future general expenses including building and Planning actions
(g) Roads & Drainage Reserve	on-going	To fund renewal and expansion of Council's roads and drainage system
(h) Library Infrastructure Reserve	on-going	To fund the Shire's portion of Capital items at the Grove Library and for Community Centre

Independent Auditor's Report

Auditor General

INDEPENDENT AUDITOR'S REPORT 2022 Shire of Peppermint Grove

To the Councillors of the Shire of Peppermint Grove

Opinion

I have audited the financial report of the Shire of Peppermint Grove (Shire) which comprises:

- the Statement of Financial Position at 30 June 2022, the Statement of Comprehensive Income by Nature or Type, Statement of Changes in Equity, and Statement of Cash Flows and Rate Setting Statement for the year then ended
- Notes comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the financial report is:

- based on proper accounts and records
- presents fairly, in all material respects, the results of the operations of the Shire for the year ended 30 June 2022 and its financial position at the end of that period
- in accordance with the *Local Government Act 1995* (the Act) and, to the extent that they are not inconsistent with the Act, Australian Accounting Standards.

Basis for opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial report section below.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other information

The Chief Executive Officer (CEO) is responsible for the preparation and the Council for overseeing the other information. The other information is the information in the entity's annual report for the year ended 30 June 2022, but not the financial report and my auditor's report.

My opinion on the financial report does not cover the other information and, accordingly, I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial report, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or my knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I did not receive the other information prior to

Page 1 of 3

the date of this auditor's report. When I do receive it, I will read it and if I conclude that there is a material misstatement in this information, I am required to communicate the matter to the CEO and Council and request them to correct the misstated information. If the misstated information is not corrected, I may need to retract this auditor's report and re-issue an amended report.

Responsibilities of the Chief Executive Officer and Council for the financial report

The Chief Executive Officer of the Shire is responsible for:

- preparation and fair presentation of the financial report in accordance with the requirements of the Act, the Regulations and Australian Accounting Standards
- managing internal control as required by the CEO to ensure the financial report is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the CEO is responsible for:

- assessing the Shire's ability to continue as a going concern
- disclosing, as applicable, matters related to going concern
- using the going concern basis of accounting unless the State Government has made decisions affecting the continued existence of the Shire.

The Council is responsible for overseeing the Shire's financial reporting process.

Auditor's responsibilities for the audit of the financial report

As required by the *Auditor General Act 2006*, my responsibility is to express an opinion on the financial report. The objectives of my audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

A further description of my responsibilities for the audit of the financial report is located on the Auditing and Assurance Standards Board website. This description forms part of my auditor's report and can be found at https://www.auasb.gov.au/auditors_responsibilities/ar4.pdf.

My independence and quality control relating to the report on the financial report

I have complied with the independence requirements of the *Auditor General Act 2006* and the relevant ethical requirements relating to assurance engagements. In accordance with ASQC 1 *Quality Control for Firms that Perform Audits and Reviews of Financial Reports and Other Financial Information, and Other Assurance Engagements*, the Office of the Auditor General maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Matters relating to the electronic publication of the audited financial report

This auditor's report relates to the financial report of the Shire of Peppermint Grove for the year ended 30 June 2022 included in the annual report on the Shire's website. The Shire's management is responsible for the integrity of the Shire's website. This audit does not provide assurance on the integrity of the Shire's website. The auditor's report refers only to the financial report. It does not provide an opinion on any other information which may have been hyperlinked to/from the annual report. If users of the financial report are concerned with the inherent risks arising from publication on a website, they are advised to contact the Shire to confirm the information contained in the website version.

Patrick Arulsingham
Senior Director Financial Audit
Delegate of the Auditor General for Western Australia
Perth, Western Australia
